# ABOUT BRITTANY

Originally from Fayetteville, Arkansas, and now based in Nashville, Brittany Moore is a country artist and songwriter known for her heartfelt storytelling and unfiltered honesty. Her music fearlessly explores topics often overlooked in country music—mental health and diet culture just to name a few. With a unique ability to present non-commercial topics in a commercially appealing way, her sound blends quirky, emotional storytelling with modern country production.

Social media has been a key part of Brittany's journey, with multiple songs going viral and a loyal fanbase that crowdfunded her debut album, set for release in early 2025. Tracks like "Give a Girl," "Attic," and "Katy Did" have already captured listeners' hearts, with her next single, "Clueless," arriving February of this year.

Brittany continues to connect with audiences through her raw, personal songs, creating a sense of representation and belonging in country music.
